

## What Is Skate Dance Dream™?

It is a full production show that blends both figure skating and off-ice dance. Place the stage centrally on the ice allows for a focus on both styles of performance arts. Skate Dance Dream™ begins with each skater and dancer believing in themselves and building the confidence to pursue dreams in their respective art. We bring world Stars and celebrities to the community level to bridge the gap between small town reveries and big city lights and stage.

**With an informal setting,  
the Stars of our shows  
take on a mentorship  
role, encouraging and  
supporting all performers  
to achieve personal  
and team goals.**

My hope and primary objective is to turn our children's dreams into a reality. I want every participant to experience performing with their heroes on and off the ice. I want to surpass the boundaries of the television screen, and bring a hands-on experience of what it takes to make it in their sport. No performer will ever be turned away.

Skate Dance Dream™ is more than a show; it is a life experience, an atmosphere, a comfortable place to be the performer you always wanted to be, with no restrictions. There is an energy that elevates skating and dancing to a whole new level. It is an opportunity to be shared with Family, Friends, and other like-minded people. It is a moment that promises to always be cherished and remembered.

Skate Dance Dream™ is a Family; it is skating and dance communities uniting to support and spread awareness of the performance arts, from the local community to the national audience and beyond. The children are the future of our arts; let us enrich their lives, and assist them to be the best they can be!
